

## ANNOUNCEMENT

Engineering Science Institute for Training (Esi) is pleased to announce to all its valuable clients and the interested professionals that we are introducing the following specialized, vital and useful Training Courses in “**Chemical and Process Engineering**”:

Esi Code	Course Title	Duration (Days)
CPE-191	Petroleum Refining Technologies	5
CPE-192	Clean Fuels and their Production Processes	3
CPE-193	Refining and Petrochemical Integration	3
CPE-194	Catalyst Development and Scale-up	3
CPE-195	Hydrogen Management in Refineries	3
CPE-196	Hydrotreating and Hydrocracking Processes	3
CPE-197	Chemical Engineering for Non-Chemical Engineers	5
CPE-198	Global Petrochemical Industry	3
CPE-199	Advanced Process Control in Refining and Petrochemical Industry	3
CPE-200	Process Measurement, Instrumentation & Process Control	5
CPE-201	Polymer Production and Processing	3

### Salient Points of the Chemical and Process Engineering Training Courses

- Highly qualified and well-experienced trainers will conduct the Training Courses, therefore, quality of courses will as per the international standards.
- These are highly job-oriented and career development courses.
- The Training Kits will be provided by Esi will include Training Manual, Worksheets, Handouts, Stationary, etc. (hard & soft PDF copies). The Kits (particularly Training Manuals), shall serve as a guide for instant reference in future for the trainees.
- Upon completion of the course, each trainee shall get the Course Completion Certificate duly endorsed by Saudi Arabia’s Technical Vocational Training Corporation (TVTC).
- The courses’ schedule shall be announced shortly.
- For booking of Corporate Training, contact us at: [info@esi.edu.sa](mailto:info@esi.edu.sa)
